

University of Michigan Health PGY2 Oncology Residency Program

Our program is designed to provide residents with a diverse set of experiences in hematology/oncology, while allowing collaboration with top experts at an **NCCN-designated Comprehensive Cancer Center**. The program will challenge residents to develop high-level clinical and literature evaluation skills through a wide variety of inpatient and outpatient experiences. The strong affiliation with the **University of Michigan College of Pharmacy** allows residents to hone educational skills through didactic lectures, round table discussions, and precepting of fellows, residents, students. Upon completion of the program, residents will be among the **leaders and best** in hematology/oncology practice, poised to secure a specialized pharmacist position in hematology/oncology.
